October 8, 1992

Dear Doctor and Staff:

In response to requests from many of our clients, we have recently updated the computer listing of our semen donors. We hope that this list will be useful in assisting your patients to choose donors. We will mail more extensive profiles, which include medical history, for any specific donors upon request. For those physicians who wish our staff to select the donor, or to send a selection of profiles based on the patient's desired donor characteristics, we will continue to provide these services. As always, there is no guarantee that a donor on the list will be available when you place your order, due to quarantines, and frequency of donations. For this reason, we recommend that your patients make first, second and third choices when selecting donors.

On the list, the donors are divided into seven racial/ethnic categories: Caucasian, African-American, Latino (Hispanic), East Indian, Middle Eastern, Asian (includes Pacific Islanders), and (100%) Native Americans. Within each group, donors are separated by blood group and Rh factor. Within each blood group, donors are listed according to hair color (blonde, red, brown, black). Within each hair color group, donors are listed according to eye color (grey, blue, green, hazel, brown, black). The final category to distinguish between donors of the same race, blood type, hair and eye colors is height. We list donors within each hair/eye category from tallest to shortest.

All donors with an asterisk (*) next to their names have proven fertility. Under education, we listed the number of years of school the donor attended (12 years for a high school graduate; 13-15 for a college student, 16 years for a college graduate, 17 for a graduate student, 18 for an M.A. or graduate student, 19 years for a Ph.D., M.D., or J.D.; above 19 years means the donor has, or is working towards, several graduate degrees). The donor list includes a legend which should explain all abbreviations. If you have any questions, please do not hesitate to contact us.

Sincerely,

Xavier M Sanchez
Xavier M Sanchez
Laboratory Supervisor

* = Donor has proven fertility (i.e. semen units have caused pregnancy)

LEGEND

Donor Code (bold, underlined): many units available, donor is active
Donor Code (bold only): many units available, donor is inactive
Donor Code (underlined): units available in 3-6 months, donor is active
Donor Code (normal lettering): few units remaining, donor is inactive
